## **GENERAL AND USE SPECIFIC STANDARDS OF DEVELOPMENT**

---

Except for more specific, alternative, or contradictory standards as may be set forth within the Residential Standards found in Schedule 6 or the Commercial/Industrial Standards found in Schedule 7 the following standards apply to all uses in all districts.

### **SECTION 1 STATUTORY PLANS**

- 1.1 Where the policies, rules or procedures indicated in a statutory plan vary, supplement, reduce, replace or qualify the requirements of this bylaw for a particular district or districts, the policies, rules or procedures indicated in the statutory plan shall take precedence.

### **SECTION 2 APPROVAL OF ACCESS**

- 2.1 Location of the access to each development from a public roadway should be shown on the plot plan submitted with the application for a development permit and is subject to the approval of the Development Officer or Municipal Planning Commission.

### **SECTION 3 DEMOLITION OR REMOVAL OF BUILDINGS OR STRUCTURES**

- 3.1 No person shall commence or cause to be commenced the demolition or removal of any building or structure, or portion thereof, until all necessary permits have been obtained.
- 3.2 A development permit must be obtained for the demolition or removal of any building or structure greater than 11.1 m<sup>2</sup> (120 ft<sup>2</sup>) in size.
- 3.3 Whenever a development permit is issued for the demolition or removal of a building or structure, it shall be a condition of the permit that the lot shall be cleared, with all debris removed, and left in a graded condition upon completion of the demolition or removal to the satisfaction of the Development Authority.
- 3.4 When a development permit is to be approved for the demolition or removal of a building or structure, the Development Authority may require the applicant to provide a cash deposit, irrevocable letter of credit or other acceptable form of security in such amount as to cover the costs of reclamation to any public utility or Town property.
- 3.5 Whenever a demolition or removal of a building or structure is carried out, the property owner shall, at his own expense, protect any wall, structure, sidewalk or roadway liable to be affected by such demolition or removal, including those on neighbouring properties, from damage or displacement. Further, the property owner shall ensure that adequate measures are taken by way of fencing and screening to ensure public safety.

- 3.6 The applicant shall be responsible for obtaining all necessary Safety Codes approvals and utility service disconnections before demolition or removal of buildings or structures.
- 3.7 All demolition materials shall be deposited in an approved waste disposal site.

**SECTION 4 DESIGN AND ORIENTATION OF BUILDINGS, STRUCTURES AND SIGNS**

- 4.1 The design, character and appearance of buildings, structures or signs shall be consistent with the intent of the land use district in which the building is located and compatible with other buildings in the vicinity.
- 4.2 The Development Authority may regulate the exterior finish of buildings, structures or signs to improve the quality of any proposed development within any land use district.
- 4.3 The maximum allowable height above the average finished surface level of the surrounding ground of the exposed portion of a concrete or block foundation may be limited by the Development Authority.
- 4.4 Subject to the requirements of the Safety Codes, the Development Authority may require that buildings be physically accessible to disabled persons.
- 4.5 If a building is to be located on a lot with more than one street frontage or on a lot with potential for further subdivision, the Development Authority may regulate the orientation and location of the building as a condition of development approval.

**SECTION 5 DEVELOPMENT OF LANDS SUBJECT TO SUBSIDENCE, UNDERMINING OR FLOODING**

- 5.1 If in the opinion of the Development Authority, land upon which development is proposed is subject to subsidence, mass wasting, flooding or undermining the Development Authority may require the applicant to submit a structural building plan prepared and sealed by an engineer, and/or a slope stability analysis, and/or geotechnical report, and/or flood mapping prepared by an engineer demonstrating that any potential hazards can be mitigated.

**SECTION 6 GRADING AND STORMWATER MANAGEMENT**

- 6.1 The Development Authority may require as a condition of development approval:
  - (a) engineered grading and drainage plans for the development and legal survey demonstrating that engineered grades have been met;
  - (b) grading and other measures, as appropriate, to control surface drainage, reduce or eliminate grade difference between adjacent lots, and minimize erosion or slope instability;
  - (c) the final grades of the development must be approved by the Development Authority before the issuance of a building permit;
  - (d) the applicant is responsible for ensuring adherence to final grades.

- 6.2 The construction of a retaining wall whenever, in the opinion of the Development Authority, significant differences in grade exist or will exist between the lot being developed and any adjacent lot or roadway. Where a retaining wall is required, the applicant shall submit to the Development Officer plans identifying the design and specifications of development for review and approval by the accredited safety codes officer.
- 6.3 Roof and surface drainage shall be directed either to the public roadway fronting the property, or as approved by the Development Officer, to a rear or side property boundary or as approved in an engineered stormwater management plan.
- 6.4 When discharging, storm water connections or sump hoses must be greater than 1.8 m (6 ft) from the front property line.

**SECTION 7 OFF-STREET PARKING AND LOADING REQUIREMENTS**

- 7.1 The off-street parking and loading requirements and design standards apply to:
  - (a) all new buildings and uses; and
  - (b) the expansion or enlargement of existing buildings or uses.
- 7.2 In the case of expansion or enlargement of an existing building or use, additional off-street parking spaces will be required to serve the expanded or enlarged area only, not the entire building or use.

**Residential Parking Requirements**

- 7.3 The following shall be used to calculate the off-street parking spaces required for a proposed development:

**Table 5.7.1: Residential Minimum Required Off-street Parking**

<b>RESIDENTIAL</b>

Dwellings:	
- All Single-unit dwellings <sup>(a)</sup>	2 spaces per dwelling unit
- 2 unit, 3-unit, 4-unit	2 spaces per dwelling unit
- Row (more than 4 units)	2 spaces per dwelling unit plus 1 visitor parking space for every 2 dwelling units
Home occupation 2	1 additional space
Secondary suite	2 spaces
All Other uses	As required by the Municipal Planning Commission

(a) For the purpose of this table, Single unit dwellings include:

<i>Stick built dwellings</i>	<i>Ready-to-move dwelling</i>
<i>Modular dwelling</i>	<i>Manufactured home</i>
<i>Prefabricated dwelling</i>	<i>Moved in dwelling</i>

- 7.4 Parking areas shall be accessible, designed and delineated in a manner which will provide for orderly parking.
- 7.5 Parking areas shall be constructed in a manner which will permit adequate drainage, snow removal, and maintenance.
- 7.6 The Municipal Planning Commission may require that parking areas or portions thereof be paved.
- 7.7 Off-street parking may be located in the front yard.

**Payment In Lieu of Providing Off-Street Parking**

- 7.8 The option of payment in lieu of providing off-street parking spaces shall apply to the Commercial land use district only and shall be subject to the following:
  - (a) at the option of the Municipal Planning Commission a developer may, subject to the approval of council, pay the Town such amount of money on such terms as the council considers reasonable in return for the equivalent public parking space to be provided by the Town elsewhere in the land use district;
  - (b) a fund to be known as the "Off-Street Parking Fund" is hereby established;
  - (c) any money received by the Town in lieu of providing off-street parking spaces shall be paid into the "Off-Street Parking Fund", and such money shall be used for the development of off-street parking facilities in the land use district from which the funds are derived;
  - (d) the amount of money to be paid into the "Off-Street Parking Fund" shall be a per stall charge, based on the costs involved in the land acquisition, facility construction and facility maintenance. The number of stalls to be used in the calculation of a per stall charge shall be based on the parking requirements in this schedule.

**Minimum Required Off-Street Parking**

- 7.9 Tables 5.7.1 and 5.7.2 shall be used to calculate the minimum number of off-street parking spaces a use is required to provide.
- 7.10 Off-street parking requirements based on floor area are to be computed on the gross floor area (GFA) of the building.
- 7.11 Calculation of off-street parking requirements resulting in a fractional number of 0.5 or greater shall be rounded up and rounded down when resulting in a fractional number of 0.49 or less.
- 7.12 A multiple use development must provide parking in an amount equal to the number of spaces for all uses, except where a shared parking provision is approved by the Development Authority.
- 7.13 A shared parking provision based upon the proposed sharing of parking spaces between two or more uses must include a written agreement between the owners on record.

- 7.14 Where a use is not listed, minimum required off-street parking shall be provided as required by the Development Authority having regard to the listed use that is most similar to the proposed use. As an alternative, the Development Authority may require a parking study to be prepared by a qualified professional at the applicant's expense to determine the parking requirements for a use not listed in Tables 5.7.1 and 5.7.2.
- 7.15 All required parking spaces shall be provided on the same lot as the building or use, except where the Development Authority may permit off-site parking spaces to be provided on a lot within 152.4 m (500 ft) of the building or use if, in the Development Authority's opinion, it is impractical to provide parking on the same lot as the building or use. Where such off-site parking is approved, a caveat shall be registered against the lot to guarantee the continuous use of the site for parking.

**Barrier-free Parking**

- 7.16 The minimum number of barrier-free parking spaces to be provided for the disabled shall be a portion of the total number of off-street parking spaces required, in accordance with Table 5.7.3: Barrier-Free Parking Spaces.

**SECTION 11 SERVICING**

11.1 All development shall be required to connect to both the municipal water supply and sewerage system where the municipal services are, in the opinion of the Municipal Planning Commission, reasonably available. Where no municipal servicing is reasonably

available, development approval shall be subject to compliance with Regional Health Authority and Alberta Safety Codes standards for unserviced parcels. Prior to development approval, the applicant may be required to submit a soils analysis and report to demonstrate the suitability of the site for on-site septic.

## **SECTION 12 ALTERNATIVE ENERGY SOURCES**

- 12.1 The Development Authority is authorized to issue development approvals for alternative energy sources pursuant to Schedule 1 and 2.

### SECTION 1 MUNICIPAL APPROVAL

- 1.1 Proposals for freestanding telecommunication antennas shall not be required to obtain a development permit but shall be required to make a submission to the Municipal Planning Commission including:
  - (a) the information as listed in Section 2, and
  - (b) complete the notification and public consultation process found in Section 3.
- 1.2 Concurrence with the proponent's project will be measured against the requirements of each district's requirements and criteria listed below. If all requirements are met the Town of Stavelly will provide concurrence in the form of a written letter to the proponent.
- 1.3 The following are excluded from submitting information for review:
  - (a) an antenna mounted on a building that projects less than 1.8 m (6 ft) in height above the top of the building.
  - (b) commercial or industrial designated lands which are a minimum of 150.0 m (492 ft) from residential designated lands or lands designated for public purpose.

### SECTION 2 INFORMATION REQUIREMENTS

#### Co-utilization (Co-location)

- 2.1 All proponents for freestanding antenna structures will be requested to identify any other such structures within a radius of 500.0 m (1640 ft) of the proposed location and to provide documentary evidence that co-utilization of the existing or new structure is not a viable alternative to a second structure.

#### Appearance

- 2.2 All proponents for antenna structures which are visible from residential areas may be requested to employ innovative design measures to mitigate the visual impact of these structures. The proponent shall provide stealth structure options when requested by the municipality. Stealth structure options will be based on an evaluation of the massing, form, colour, material, and other decorative elements, that will blend the appearance of the facility into and with the surrounding lands.

### **Lighting and signage**

- 2.3 Lighting in addition to that which is required by applicable federal agencies shall be avoided. Security lighting may be considered provided it meets the requirements of the applicable land use district.
- 2.4 Only signage that is required by applicable federal agencies is permitted. No advertising signage shall be permitted.

### **SECTION 3 NOTIFICATION AND PUBLIC CONSULTATION PROCESS**

- 3.1 At the expense of the applicant, the municipality will notify all land owners within a distance of 500.0 m (1640 ft) of the proposed structure.
- 3.2 With each notification, the proponent will be responsible to submit a letter providing notification of the location of the tower, physical details of the tower, the time and location of the public meeting, and a contact name and phone number of someone employed by the proponent who can answer questions regarding the proposal. The notifications should be sent 25 days prior to the open house.
- 3.3 The proponent shall hold an open house regarding their development proposal and should proactively explain all aspects of the siting, technology and appearance of the proposed structure.
- 3.4 From the open house, the proponent will be responsible to provide the Municipal Planning Commission with a copy of the agenda and the minutes indicating the topics discussed, additional concerns raised with resolutions, and any outstanding issues that the proponent and/or landowners could not resolve.
- 3.5 Where the public process has raised unresolved concerns about public health and related effects of wireless communication technology, the Town of Stavelly will request a ruling by Industry Canada prior to the issuance of a letter of concurrence.
