## Out of Town Business's

Did you know that **ALL** contractor's that come to Town require a Town of Stavelly business license be it for a day or a week or longer?

When you have a contractor, plumber, electrician etc. come from out of town or are unsure don't hesitate to call the office to see if they have a license or a regional license.

**FYI: A business license will be required in order for your contractor to obtain safety permits.**
